# *Gandanta Case Studies*

By  
**G. H. Visweswara, India**

## **Introduction:**

Rashi Sandhi & Gandanta: What literature on astrology says.

**L**iterature on Astrology says that planets positioned at the end of all the signs cause health as well as relationship problem. The karakatwa related to those houses such as marriage, profession would not be stable. Planets placed at the beginning of a sign are weak and helpless to deliver the expected results. Such planets cause delay in marriage or finding a job or begetting children etc.

The Gandanta portions of nakshatra form another class of sandhi which is considered inauspicious. The portions of the nakshatra are:

- Last 3 deg 20 min of Aslesha & first 3 deg 20 min of Makha.
- Last 3 deg 20 min of Jyeshtha & first 3 deg 20 min of Mula.
- Last 3 deg 20 min of Revati & first 3 deg 20 min of Ashwini.

These are the malefic junction regions in a chart. Among these Parasara considers

the Jyeshtha-Mula gandanta to be the worst afflicted and the Revati-Ashwini to be the least problematic.

Gandanta is considered particularly inopportune because it is a double sandhi, a juncture of both two rasis as well as two nakshatras.

### **Effect of planets placed in Gandanta**

**P**lanets located in these degrees in the rasi are very weak irrespective of their placement status and indicate major problems in native's life unless the planets involved are strengthened by appropriate remedies. The area of one degree on either side is considered as the area of malefic content. All astrological texts affirm that a planet in Rasi-sandhi destroys that Rasi, irrespective of karakatwa of the planet.

Naturally malefic planets such as Sun, Mars, Ketu, Rahu, Saturn, afflicted Mercury, waning and afflicted Moon are innately predisposed to cause disturbance in health. While out of these Sun, Mars, Rahu, Ketu, and Saturn are the usual suspects.

Saturn and Rahu are also the Karakas of disease and if they are linked in any manner with the disease ruling 6<sup>th</sup> house, they are rendered especially potent to give ill-health according to the Sign, Planet, House or the Karaka they afflict.

Dasa of planets placed in the Rasi Sandhi/Gandanta are terrible to the house lorded by the planet and the natural significations of the planet.

### **Timing of inauspicious effects**

Planets showcase an inauspicious effect when placed in these areas or transiting these highly sensitized zones while adverse Mahadasa (Major Periods: MD), Antardasa (Sub Periods: AD) or Pratyantardasa (Sub-Sub-Periods: PD) are running. During such periods, these planets could lead to adverse incidents such as accident, injury, serious health problem, and break in relationship or some other distress, giving a lot of physical and mental pain. The Dasa of a planet in Rasi-Sandhi (especially Gandanta) can bring sorrow and disease. If the planet is in the last degree of the sign, it may even inflict death. The trouble would be more evident in the Antardasa of a malefic and would be less during the Antardasa of a benefic.

### **Remedies**

A Gandanta planet should never be ignored. Something serious is possible during the dasa of a planet placed in Gandanta. If such a person comes to the astrologer, advice remedial measures like Mahamrityunjay Mantra, which can alleviate suffering to some extent. During

Gandanta nakshatra dasa or maraka dasas perform Ayushya Homa to improve longevity. It is suggested that the deity of the nakshatra lord is to be propitiated for the solution to this predicament.

### Combinations for accidents:

- While analysing the results of Gandanta placement, it may be useful to note the following combinations for accidents:
  - Mars and Rahu are karaka for accidents; Rahu can cause sudden accidents;
  - Mars (natural owner of 8H) dasa if Mars connects to 12H;
  - Mars-Jupiter combination in Lagna causes fractures and accidents;
  - Mars-Saturn in 12H; Saturn transit over Mars or at trinal positions to it at exact degree;
  - Venus-Rahu dasa can cause accidents, depending on placement etc.;
  - Rahu in 5<sup>th</sup> from Moon—accident prone, danger from water;
  - Ketu-- injuries from accidents and fire; Ketu in 6H with 6L—injuries by accidents;
  - Afflicted 10L in 12H;
  - 3H when afflicted -- accidents on road or when on the move;
  - 6H and 8H;
  - Only malefics in Kendras;
- Strong 8H is said to give protection from accidents.

## CASE STUDIES

With the above background, a few case studies are presented to illustrate and verify the effects of planets in Gandanta. Some of the data are of persons known to the author and a few are selected from Astro-databank.

### Conditions observed:

When an accident or operation or serious illness occurs in a horoscope with planet in Gandanta, it is found that

- (i) The Mahadasa Lord (MDL), Antardasa Lord (ADL) and Pratyantar dasa Lord (PDL) all are 'associated' with the Gandanta planet in D-1 or D-9.
- (ii) **In transit**, all three dasa lords and additionally the Lagna lord (LL) and Moon come under the 'influence' of natal or transit Gandanta planet. Influence can be by aspect, conjunction, exchange or by placement in the sign owned by the Gandanta planet or influence on the dispositor of the concerned planet. The Gandanta planet itself need not necessarily be influenced by natal Gandanta planet.

(iii) The seriousness of the incident is dependent on the degree of malfeasance the ADL.

**Exception:**

In one case, where Ketu alone was in last degree of Gandanta, it has not caused any mishaps/accidents/sickness under similar conditions.

*Note: All accidents or sickness for such natives need not be related to this set of conditions. Some of them may be caused due to reasons other than the Gandanta planet.*

**Note:**

Not in all cases discussed below was exact date of the event available. Based on conditions observed in clear cases, **assumption** has been made in some cases about exact time, within the broad time that was given by the native. Other astrologers can verify this on data with them and confirm if these set of conditions cause such incidents in majority of cases. This would increase the possibility of predicting the dates of such mishaps with a greater accuracy.

Apart from the planet in last degree of Gandanta, please also note the other factors which indicate accident proneness:

- Mercury is in the last degree in Gandanta & dispositor of Mars
- Ketu is in Gandanta with 6L Jupiter
- Rahu is in 8H in the last degree
- Jupiter as the Lord (3,6) aspecting Mars & Mercury

- Mars aspecting 12H
- 3H afflicted due to Ketu in 3<sup>rd</sup> Bhava, aspect of Mars and affliction to 3L Jupiter by Ketu. Primarily, Mercury is in Gandanta in the last degree becoming a harmful planet. Being placed in its own nakshatra, it has worsened the condition of Mercury (nakshatra lord also being in Gandanta). By dispossiting Mars, it afflicts Mars also with the same harmfulness. Mars as Lord of second and seventh house has acquired maraka qualities also. Mars as the afflicted planet becomes responsible for accidents along with Rahu.

Dasas of planets which can cause accidents:

- Venus is 8L (though also Lagna Lord) and is dispositor of Rahu - is capable of causing accidents.
- Saturn aspects Mercury and hence in its dasa triggers effects of Mercury.
- Ketu itself is in Gandanta & can cause accidents being conjunct with 6L. Ketu is also in nakshatra of Mercury worsening the potential for bad results.
- Jupiter is malefic in its periods as Lord (3, 6) & is dispossited by Mars. As 6L, it is capable of causing accidents. It aspects Mercury & hence can trigger the bad effects of Mercury in its dasa.
- Hence Mercury, Mars, Sat, Rahu/Ketu & Venus indicate accidents in their periods & sub-periods.

The fact that Moon, Mars and Jupiter are in Pushkara Navamsa and that Saturn as Yogakaraka is exalted, may mitigate the severity or consequence of accidents, but cannot avoid it.

### Event 1:

1<sup>st</sup> or 2<sup>nd</sup> April 2000. Fracture of right knee after jumping into a waterfall and unexpectedly landing on a stone. Another person had jumped at the same point just before the native.

### Dasa: Jup-Mars-Sat;

- Jupiter aspects 10H and triggers Mercury; Mars' dispositor Mercury is in Gandanta in 10H & hence injured right knee; Saturn aspects Mercury and also signifies injury due to stone.
- The ADL Mars is a malefic, but by virtue of being a Kendra lord & placement in the 9H, the bad effect is mitigated.

### Transit:

MDL Jup, ADL Mars and PDL Saturn are together in sign of Mars. Sat dispossits Mercury. Both Moon &
